1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

Cancel Withdrawn Claims 18, 23, 28-34, 59 and 65-71 without prejudice which is subjected to an election/restriction requirement made without Traverse.

2. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach and/or suggested providing a fuel processing system wherein the feedstock supply which is operatively connected and associated with a fuel processor (reformer) which produces hydrogen wherein the feedstock supply contains at least a carbon containing feedstock, water and odorant, wherein the odorant has a different composition than the carbon containing feedstock which imparts to the carbon containing feedstock and odor distinct from the carbon containing feedstock and is at least substantially free from sulfur compounds. Therefore, mercaptans and sulfides which are inherently found in a hydrocarbon feedstock would not be considered to be an odorant in the context of this invention and would be poisonous to the catalysts involved in reforming. The preferred feedstock is methanol which is toxic if inhaled or ingested and including the odorant would provide added safety if the feedstock is spilled or unintentionally discharged.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
